

INTRODUCING "WELDTEX: COMBED PANELS

THE GREAT MID-CENTURY PANEL RETURNS!

WE SHIP NATIONWIDE!

Beautiful Accent Walls, Ceilings

Vintage Plywood Mill Works, a division of Eichler Siding, has been producing a variety of combed plywood panels, hardwoods, and T&G wainscoting for the last several years.

People often do not know what the material is called, but many have seen it. Some folks even have it in their homes and didn't know where to purchase it.

For wall accents, we offer pine plywood panels as well as solid stock hardwood T&G narrow panels. The T&G can be used on flat walls, as well as inside or outside curved walls shown above.

T&G cedar or cypress is available in 1x6 widths. Cedar is shown below.

Commonly used as ceiling tiles in various sizes, and also on accent walls, we manufacture it in a variety of formats. All ceiling tiles are made from 3/8" pine clear faced plywood. (colors shown only as examples)

Pine Plywood Panels

Hardwoods

Wainscoting T&G

Clear Cedar Siding T&G

Cypress Siding

Plywood Pine Panels (color shown as example)
